

# LEARN TO SWIM

LEADERS IN AQUATIC EDUCATION  
ON THE COAST

## LEARN TO SWIM PROGRAM

5 Star Swim Schools are dedicated to providing your child with all the skills they will need to not only survive, but thrive in the water. We've created a bright and positive learning atmosphere. Our goal is to teach children to swim in a positive, safe and loving environment. We recognize that each child is an individual with different emotional and developmental abilities and we cater each lesson to those needs.

In addition to teaching the skill of swimming, we also strive to develop each child's self-esteem, confidence, and love for the water – because creating a happy swimmer is a gift that lasts a lifetime.

Classes are available for all ages and levels of ability.

Small group lessons provide the perfect balance of personalized attention and student interaction.

### BENEFITS
